Sebum Production

In studies, the Acne Defense System reduced sebum production by almost 70% compared to less than 10% by the other brands.

CLARIFYING CLEANSER

Prepare

A unique sulfate and paraben-free formula, is specially formulated with the perfect balance of Salicylic Acid and skin nourishing botanicals. Salicylic Acid, a Beta Hydroxy Acid, has the ability to penetrate into the pore lining and exfoliate inside the pore, as well as the skin's surface making it effective in reducing breakouts. Clarifying Cleanser is also formulated with Niacinamide to reduce redness and improves the skin's overall look. In addition, the soothing blend of botanical oils and extracts provides a multitude of benefits without over drying the skin. This product immediately cleanses deep into pores, eliminating acne-causing bacteria, impurities and oil, leaving skin soft, radiant and blemish-free.

CORRECTION PADS

Correct

Formulated with a unique combination of Salicylic Acid 2%, Glycolic Acid 5% and Lactic Acid 5%, pre-absorbed pads synergistically deliver a gentle, microchemical peel to exfoliate and correct problem acne and prevent future breakouts, leaving skin cleaner, clearer and blemish free. Helps reduce acne associated redness, irritation and inflammation with a botanical complex including; Yeast, Horse Chestnut, Licorice, Olive, Ivy, Burdock and Clary Sage Extracts.
